NOTES

There are patterns in French verb conjugations - most French verbs share a conjugation pattern with one or more other verbs. If you would like to improve your verb conjugations, it's a good idea to get used to using verb models - to look at a verb, such as *parler*, and be able to use that as a model to conjugate *chanter*. See my other verb encyclopedia for [verb conjugations using models](#).

The translations given here are not exhaustive - they are simply to get the main idea of the verb across. Consult a dictionary for complete definitions.
